Education

02/2021– Ulsan National Institute of Science and Technology (UNIST)
Department of Computer Science and Engineering
Undergraduate Student (GPA: 4.10/4.30)

Research Experience

02/2023–02/2025 Language and Intelligence Lab, UNIST
Advisor: [Hyounghun Kim](#)

09/2021–02/2023 Intelligent Control and Reasoning Lab, UNIST
Advisor: [Sungbin Lim](#)

Publications

[P1] Response Tuning: Aligning Large Language Models without Instruction
Seokhyun An and Hyounghun Kim
arXiv preprint. 2024. [\[pdf\]](#)

Honors & Awards

2024 Korea Presidential Science Scholarship

2024 National Excellence Scholarship (Natural Science and Engineering)

2022 Gold Prize, KAIST-POSTECH-UNIST Data Science Competition

2021–2024 Full Scholarship for all semesters at UNIST

2021 UNIST Outstanding Admission Scholarship

Teaching

Teaching Assistant

Fall 2024 ITP117 Discrete Mathematics
Instructor: Michael Burrell

Spring 2024 MTH211 Statistics
Instructor: Bogume Jang

Fall 2022

MTH211 Statistics

Instructor: Bogume Jang

ITP117 Discrete Mathematics

Instructor: Michael Burrell

Spring 2022

MTH203 Applied Linear Algebra

Instructor: Jungjin Lee

ITP107 Introduction to AI Programming I

Instructor: Michael Burrell
