Education

03/2021– Ulsan National Institute of Science and Technology (UNIST)
Department of Computer Science and Engineering
Junior Undergraduate Student (Cumulative GPA: 4.07/4.30)

Research Experience

02/2023– Language and Intelligence Lab, UNIST
Advisor: [Hyounghun Kim](#)

09/2021–02/2023 Intelligent Control and Reasoning Lab, UNIST
Advisor: [Sungbin Lim](#)

Publications

[P1] Response Tuning: Aligning Large Language Models without Instruction
Seokhyun An and Hyounghun Kim
arXiv preprint. 2024. [\[pdf\]](#)

Honors & Awards

2024–2025 Korea Presidential Science Scholarship

2024 National Excellence Scholarship (Natural Science and Engineering)

2022 Gold Prize, KAIST-POSTECH-UNIST Data Science Competition

2021–2024 Full Scholarship for all semesters at UNIST

2021 UNIST Outstanding Admission Scholarship

Teaching

Teaching Assistant

Fall 2024 ITP117 Discrete Mathematics
Instructor: Michael Burrell

Spring 2024 MTH211 Statistics
Instructor: Bogume Jang

Fall 2022	MTH211 Statistics Instructor: Bogume Jang
Spring 2022	MTH203 Applied Linear Algebra Instructor: Jungjin Lee
	ITP107 Introduction to AI Programming I Instructor: Michael Burrell
